# Set Minecraft version to 1.18.2

**Launch** the client, **select** Installations tab and **create** new installation. **Select** the correct version before **PLAY**.

The image consists of three screenshots from the Minecraft launcher interface, illustrating the steps to set the version to 1.18.2.

**First Screenshot:** Shows the main menu for "MINECRAFT: JAVA EDITION". The "Installations" tab is highlighted with a pink box. Below the navigation bar is a search bar labeled "SEARCH" with the placeholder text "Installation name". A "New installation" button is highlighted with a pink box.

**Second Screenshot:** Shows the "Create new installation" dialog. The "NAME" field contains "unnamed installation". The "VERSION" dropdown menu is open, showing "Latest release (1.19.2)" and "release 1.18.2" (highlighted with a pink box). The "SERVER" dropdown is set to "SERVER" with a downward arrow.

**Third Screenshot:** Shows the main menu with the "PLAY" button highlighted with a pink box. Below the navigation bar, a list of installations is shown:

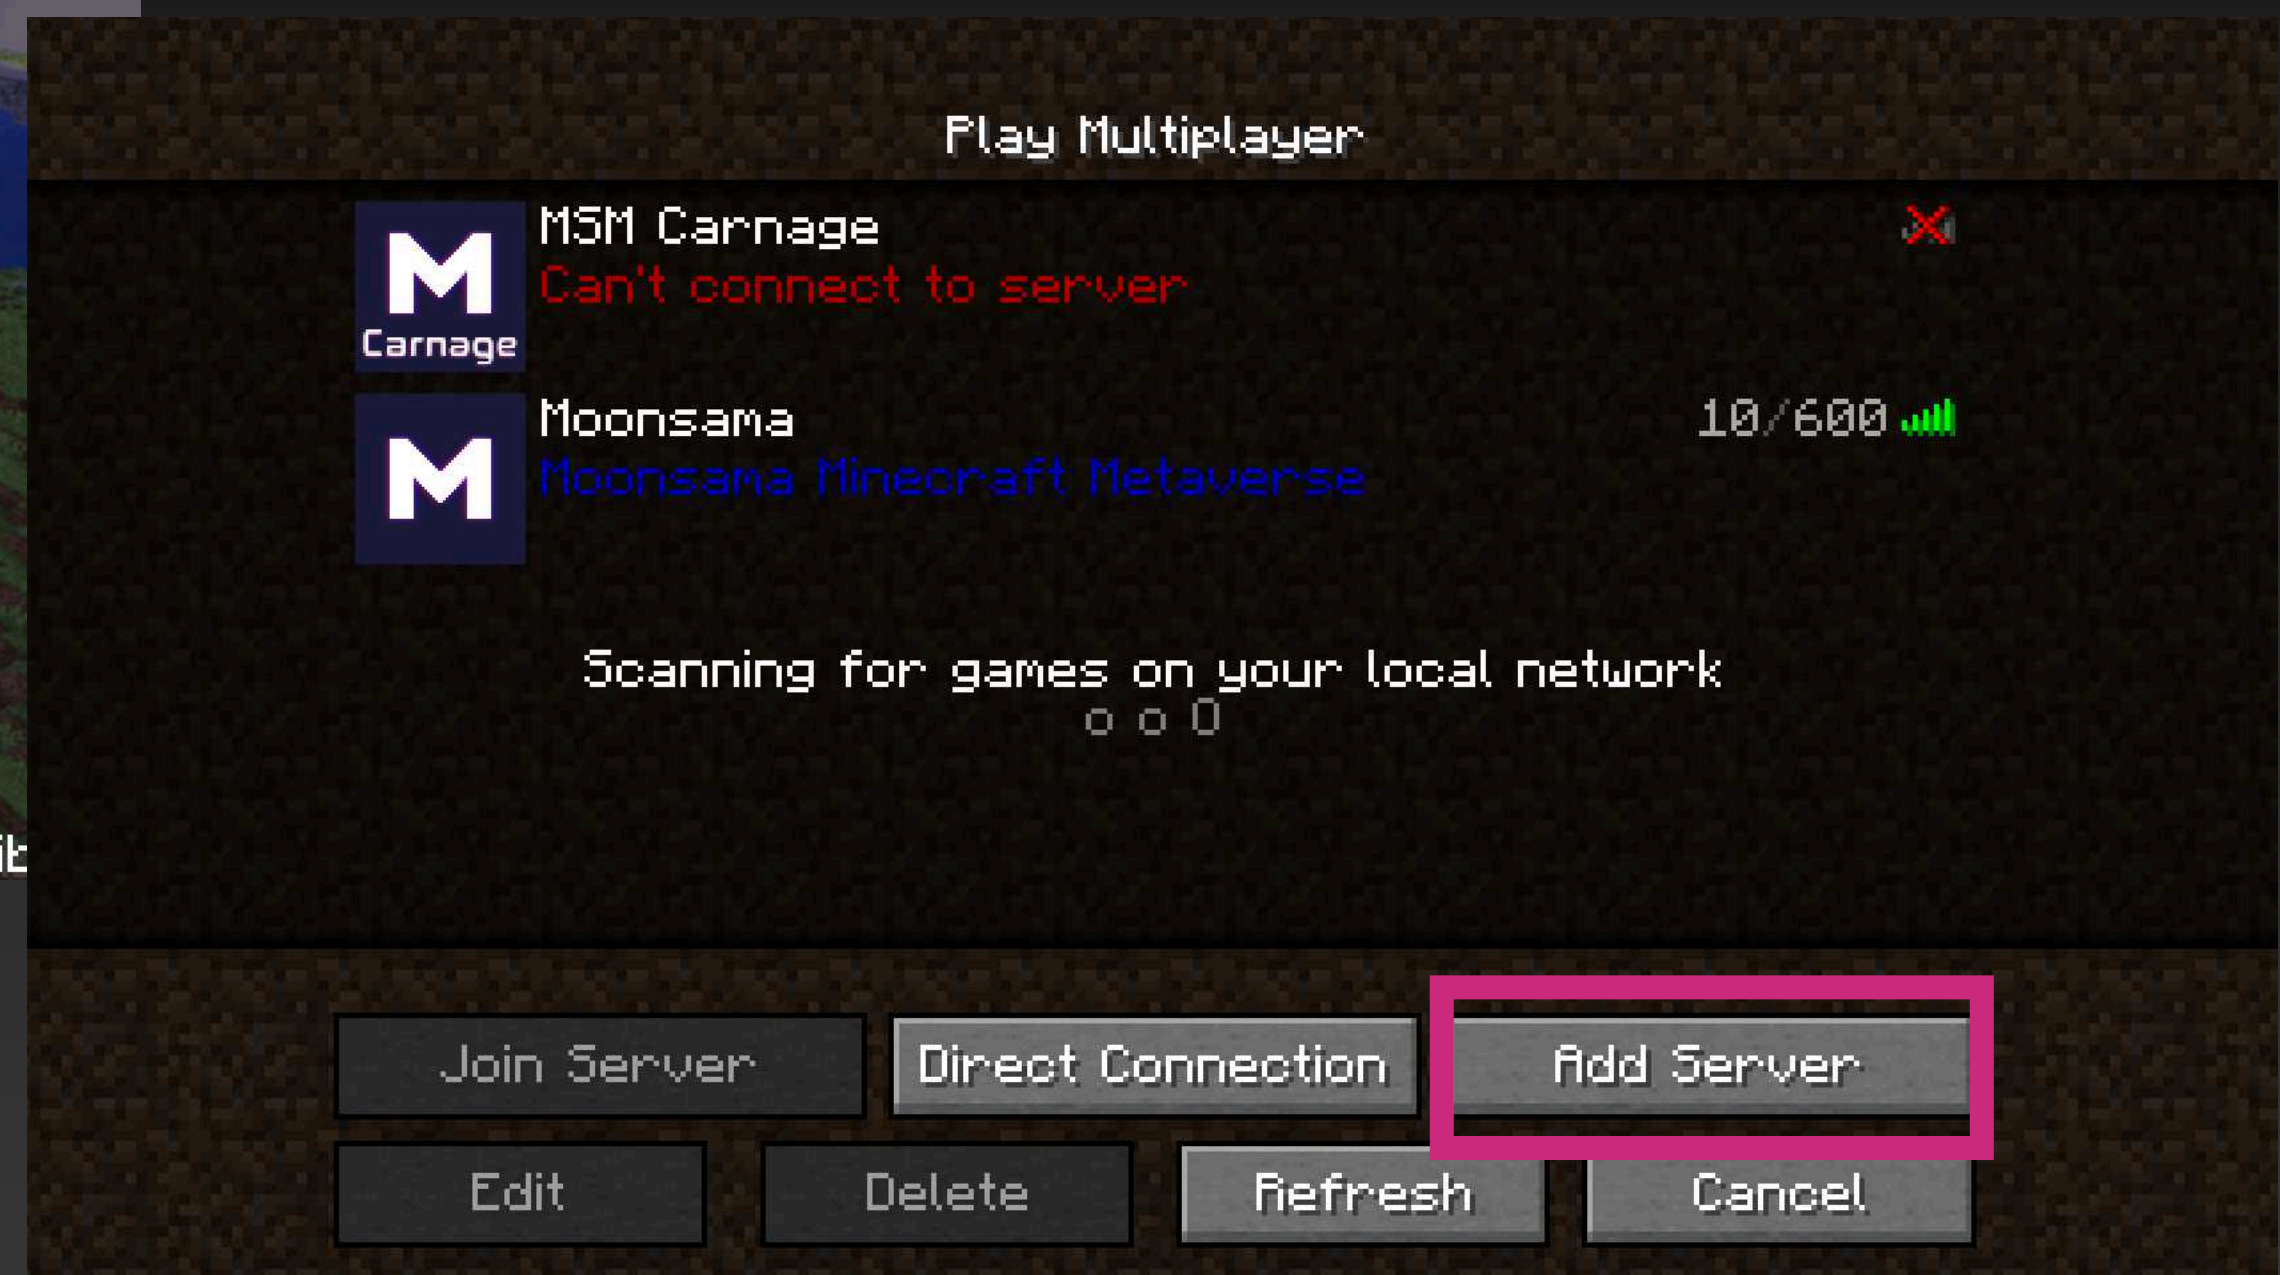

- Moonsama 1.18.2 (highlighted with a pink box)
- Latest release 1.19.2
- Latest snapshot 1.19.2
- Moonsama 1.18.2 (highlighted with a pink box)
